

Immediate postpartum Long-Acting Reversible Contraceptive (LARC) insertion

Effective January 1, 2022, Wyoming Medicaid will now reimburse professional services for immediate postpartum IUD or contraceptive implant insertion procedures if billed separately from the professional global obstetric procedure.

Medicaid does not reimburse facility services for the immediate postpartum IUD or contraceptive implant insertion procedure. These inpatient services may not be unbundled on the hospital's facility claim.

Medicaid reimburses for the IUD or contraceptive implant device in one of the following ways:

- As a separate professional claim submitted by the facility's medical group number when the facility supplies the device
- As part of the professional claim when the device is supplied by the provider performing the insertion

Note: When billing for an IUD or contraceptive implant device, the provider must use the appropriate HCPCS code and NDC.

Procedure Code	Description
11981	Insertion, non-biodegradable drug delivery implant
11982	Removal, non-biodegradable drug delivery implant
11983	Removal with reinsertion, non-biodegradable drug delivery implant

Billing Requirements

Practitioner Group LARC Device Billing on the CMS 1500 Form/837P Claims Transaction
